

## Janousek Single

Price excluding VAT - £3,700.00  
Fast, High Quality, Safe & Affordable

### Design

Janousek racing boats have been the No 1. choice for Schools, Universities and Clubs in the UK for over 25 years. We have built over 5,000 racing boats during that time and they are renowned as being fast, of high quality, safe and affordable. They also retain their value far better than other racing boats. Consequently they are outstanding value for money

The Janousek JC single scull is built using the same design as the Classic Stämpfli. The shape is based upon years of development and design, when analysed by computer it was not possible to find any areas that needed improvement.

Janousek offer 12 different hull sizes for crew weights from 55kg - 110kg.

### Construction

All boats are constructed of a stiff honeycomb, sandwiched between layers of glass and carbon fibre, cured at 120°. This method of construction ensures the boats are long lasting, hard wearing and resilient. Every boat is hand made and trimmed specifically to the desired weight for the crew.

### Riggers and Parts

Boats are fitted with specially designed Aluminium 3-Stay Riggers and backstays (optional addition with sculling riggers). We offer a range of finishes for riggers depending on your preference. Also fitted as standard are; anodised aluminium runners, cedar single-action seats, adjustable aluminium stretchers and Janousek shoes.
